PROFESSIONAL SUMMARY

Detail-oriented and adaptable professional with experience in customer service, provider support, administrative tasks, and handling sensitive information in a fast-paced environment. Skilled in communication, data management, Microsoft Office, Excel, documentation, problem-solving, and coordinating tasks efficiently. Proficient with various digital tools and technology, with a strong ability to learn new systems and workflows quickly. Known for accuracy, professionalism, reliability, and maintaining a high level of service while managing multiple priorities. Seeking to leverage these skills as a Virtual Assistant to provide dependable administrative, customer support, and operational assistance to clients and teams.

WORK EXPERIENCE

Customer Service Representative

November 2024 – August 2026

Concentrix CVG, Philippines Inc. | Naga City, Philippines

- Provided professional customer service and administrative support to healthcare providers through phone and other communication channels.
- Handled provider inquiries related to benefits, eligibility, claims, and account information with accuracy and professionalism.
- Reviewed and processed claims-related information while ensuring accurate documentation and adherence to established procedures.
- Managed multiple tasks and inquiries simultaneously in a fast-paced, high-volume environment while meeting productivity and quality standards.
- Documented customer interactions, requests, escalations, and resolutions accurately in internal systems.
- Coordinated with internal departments to resolve complex issues, follow up on requests, and provide timely updates.
- Handled sensitive and confidential information in accordance with company policies and privacy requirements.
- Used various digital platforms and business applications to research information, update records, and complete daily tasks efficiently.
- Identified issues, researched appropriate solutions, and communicated information clearly to providers and internal teams.
- Maintained attention to detail when reviewing records, claims information, and other documentation.
- Demonstrated strong written and verbal communication skills when interacting with different stakeholders.
- Adapted quickly to new systems, processes, tools, and workflow changes while maintaining consistent performance.

EDUCATION

Bachelor of Science in Computer Science

August 2022 – May 2024

Partido State University | Goa, Camarines Sur Philippines

- Pursuing a Computer Science degree with a strong foundation in programming, information technology, problem-solving, and computer systems. Academic experience includes working with programming languages such as C++, Java, Python, and JavaScript, as well as databases, web development, software development concepts, and technology-based projects. Developed strong analytical and logical thinking skills through programming exercises, system development, and technical problem-solving. The program has also strengthened the ability to learn and adapt to new software, digital tools, and technical workflows.

Senior High School – Computer System Servicing

June 2016 – July 2022

Pinaglabanan National High School

- Completed Senior High School with a specialization in Computer Systems Servicing (CSS), gaining practical knowledge in computer hardware, software installation, troubleshooting, networking fundamentals, system

maintenance, and basic technical support. Developed hands-on experience working with computer systems and diagnosing common technical issues. The program strengthened attention to detail, problem-solving abilities, technical communication, and confidence in working with various computer technologies and digital tools.
